

Sealant Tape

- Economic, low cost vacuum bag sealant tape suitable for ambient, de-bulk and medium temperature applications.
- Widely used in the wind, marine and glass industries.
- Excellent tack.
- Also suitable for high temperature envelope bagging applications.
- Material compatible with most substrates (including composite tools) and film materials.
- For optimum results, tape must be allowed to cool to an ambient temperature before stripping from mould surfaces.

PHYSICAL PROPERTIES

- Maximum use temperature Up to 150°C bag to tool
- Colour Black Grey
Yellow

AVAILABILITY & PACKAGING

- Roll size 15m x 12mm x 3mm
(also available as a 4mm diameter bead) 22 rolls
- Standard box contents

STORAGE & HANDLING

- Must be stored in it's original containers, under optimum conditions of between 5 and 25°C.
- Material has a two year shelf life from date of manufacture.
- Must be stored flat.
- Boxes should not be stacked more than 5 high.
- Handling of these products must conform to individual company guidelines and health and safety regulations.
